“ *My Aunt Dolores had a heart of gold, kindest of heart, she was never afraid to teach anyone anything if they were willing to learn always so patient. I have many fond memories working on the farm with the hay and cows always watch out for the bull, don't ever tease them she said. She always had the most beautiful flowers she loved tending to them and taught me well about iris's and gladiolas and she gave me starters of Iris's for my first home and came to Wausau and helped me plant them to make sure I remember how to care for them I cherished the gardening years, I also remember watching lassie and flipper on TV when she watched us when we were in kindergarten. When she took vacation from St Croix in the summer she always made sure to make her famous home made pizza burgers and invite my brothers and I over. She was always willing to listen and sit for a chat whenever we came for a visit and her and uncle Alvin would always greet you with such big smiles and hugs and always said goodbye the same way with them always saying make sure to stop when home again and you ever need a place to stay you know the door is always open. Ever need anything just a call away or a bike ride away. I have many wonderful memories of great stories, great food, great education filled with lots of love. I will miss her dearly, til next time as she would always say and now you take care.*
