“ *I loved spending time and taking care of June when I worked at Waterford. She so loved to read large print books ---- I was always looking for them and bringing to her. She would return them to me with a big check mark in the corner of the first page, I will be keeping a few of them for memory of that special lady. Love you June. God Bless you.*

June (Aunt Emy to me) and my mom were sisters and my mom always put a checkmark on the front page of books she was finished reading too! Thank you for sharing that special memory and making me smile.

I'm so sorry for your loss. My mom (Bette Black) and June go way back and were friends for many, many years. My mom would many times still refer to her as June Rich. When they were out and about and run into each other, they would talk up a storm - about old times and what each other was up to. Cherish all the good times and memories. She was loved and will be missed by many. Take care.

“ June was one of my favorite residents while I worked at the Waterford. Even after having my son we would go visit as often as possible! The last picture I have is from Halloween. My deepest condolences to the family - June was a very special lady. I will cherish the memories I have with her forever ❤️
