“ *My father & mother raised 4 children in a small house in Hubertus WI.*

*He held two jobs and continued education most of our growing years, found time for family, it was great pleasure seeing him home working on house, cars, those seldom / memorable rare occasions watching a western (John Wayne ) and eating popcorn. He touched us the love of outdoors, hunting, fishing, looking for morels. I loved hearing of his childhood memories he was a calm, kind, forgiving person and found the best in life, walking through the woods shotgun in hand dog at side ruffled grouse hunting. Low quiet voice saying ( watch over there ) sitting in a boat when he had the joy of catching a beautiful largemouth bass. Oh the joys of fast moments so many and still not enough. He sat at my bedside on a chair as I was in agonies with a injured back & helped me through a snow storm in am morning. Much love and peace goes out to my dearest father !*

*Thank you so very much!!*
