“ *I just found Bob's obituary here tonight online - 9-28-20. My sister 'met' Bob 45 years ago in her recovery from a very bad household accident. After spending several months in a hospital, she and Bob somehow became pen through someone my father worked with. We lived in Hilltown, PA at the time. After a few years and many letters, a once a week phone call began. Then several times a week along with Birthday and Xmas cards and gifts. He was a kind, caring friend to her. I talked to him several times over the years and we emailed as well.*

Jeanie moved from PA to FL with my parents(1984); then to MA near my home when both of our parents had passed (2007). They began to communicate less frequently these past few years as they both aged, and Jeanie mentioned a couple weeks ago that she could not reach Bob. So I will see her in a few days and break the sad news to her. I had a feeling something may be wrong when he did not return my recent email....so I searched on Google and found the obituary.

I will be forever grateful for the kindness and patience he showed to my sister over these past 4 decades. Belated condolences to his family.
